Step 1: Consultation

In the very first step, all you have to do is tell us about you.

From your basic personal information such as who you are and what you do to more detailed facts like your language proficiency and work experience, do not hesitate to share anything that would help us get to know your abilities and skills.

There is one perfect way for you to immigrate to Canada among many others, and ensuring to find it secures a good beginning that makes a good ending.

Cost-effective

Not everybody can afford the tremendously high costs of immigration, which makes money one of the most formidable hurdles along the way. At Mana Immigration, we have made it our mission to not let financial problems come between you and your aspirations- at least on our part.

Personalized

Naturally, the immigration process differs for each and every applicant depending on everyone's specific situation and case. At MANA Immigration, we will assess your very specific case, taking into consideration all your assets and points, to ensure we are seeking all possible avenues of success for you. We will make sure that your immigration case meets all the legal requirements before submission. The careful gathering of documents and paperwork will help eliminate unnecessary wait times and hassles in the process.

Transparent

Transparency is what helps us gain your trust. Full and transparent guidance is what keeps our clients loyal to us. We will clearly explain every step in your immigration process and give you all the details you need to know.

Through continuous follow-ups, we make sure that the process of your case is progressing as it should and we will always inform you of any changes that have been made to the status of your case.

We strive on going the extra mile. Your complete immigration package that is ready for submission, will contain not only the necessary forms and documents required by the immigration office, but we will also provide a cover letter, specific to your case, highlighting all the points that we believe are going to help the immigration officer make a decision on your case easier and faster.

We are by your side in every step of the way. From gathering required documents, to getting all the necessary translations, and preparing forms, our consultants are there with you to make sure all the steps are done as they should.

We also have sister branches in other countries, with dedicated staff who are always ready to help you through processes in the least amount of time.
